

## HAC-01

S.SUZUKI HAC-01 - Harmonica sterilization cleaner - Alcohol type

Effective in sterilization and deodorization with quick-drying properties for easy maintenance.

Contains natural ingredients and is ideal for cleaning and removing finger prints etc.

### \*How to use.

Spray this cleaner (3 -4 squirts per application) on to a dry soft cloth such as gauze or lint free cloth and wipe harmonica.

It excels in quick drying, but please make sure the harmonica is completely dry before use.

### \*Usage notes

Please do not use other than the purpose intended. Do not drink.

Do not use near naked flames, as there is a risk of fire.

Do not place in direct sunlight or store in high temperature.

Please ventilate room properly when using.

Be careful when spraying (against yourself or other people).

Keep out of reach of children.

If the liquid gets on the floor or furniture, it may cause discolouration, so wipe off with a cloth immediately.

### \*First aid

If it gets in your eyes, please rinse thoroughly with water immediately.

If accidentally swallowed, please drink water.

Consult a doctor immediately if you have any problems and bring the product with you to your doctor (or hospital).
